High Performance Aircraft Training Announces 2005 Schedule

December 8, 2004 (Redmond, OR) – “In the air faster, back to the earth safer” has been a Lancair slogan for many years, and thanks to an advanced flight-training program, this motto is more valid than ever before. Lancair has contracted High Performance Aircraft Training Inc., owned by Pete Zaccagnino for flight training seminars, as well as individual instruction around the world for all Lancair pilots.

High Performance Aircraft Training Inc. offers initial training, of approximately 15 hours. This training is conducted in your own aircraft or in one of the Lancair factory planes. The purpose is to make sure our pilots are familiar with the high performance and complexity of these incredible machines. Flight planning, cockpit resource management, and even traffic pattern execution require an adjustment in thinking for most new Lancair pilots. “We want our customers to be safe. We’ll do everything we can to make this happen.” states Lancair owner, Joe Bartels.

The 2005 High Performance Aircraft Training Inc., Ground School and Recurrency Training schedule has just been announced. The dates are January 15th in Sebring, FL; May 15th in Hondo, TX; September 2nd in Redmond, OR and November 5th in Arizona. Start looking at your calendars and plan accordingly. By enrolling in both programs at the same time, the package price is \$695.00. This includes Ground School and 5 hours of recurrency training in your own aircraft. Recurrency training can be done throughout the year, but the fee structure is quite different. For more information on any of our programs or pricing please visit www.highperformanceaircrafttraining.com, or call Pete Zaccagnino at 267-784-6104.

Lancair International, founded in 1984, is celebrating its 20th year selling the world’s most successful high performance piston and turbine kit aircraft. Lancair is known as the fastest single engine aircraft in the world and has set several world speed records, dominating the Sports Class at the Reno Air Races, winning the Gold Medal for the last six years. For more information on Lancair, visit www.lancair-kits.com or call 541-923-2244.
